Our Services

What we do?

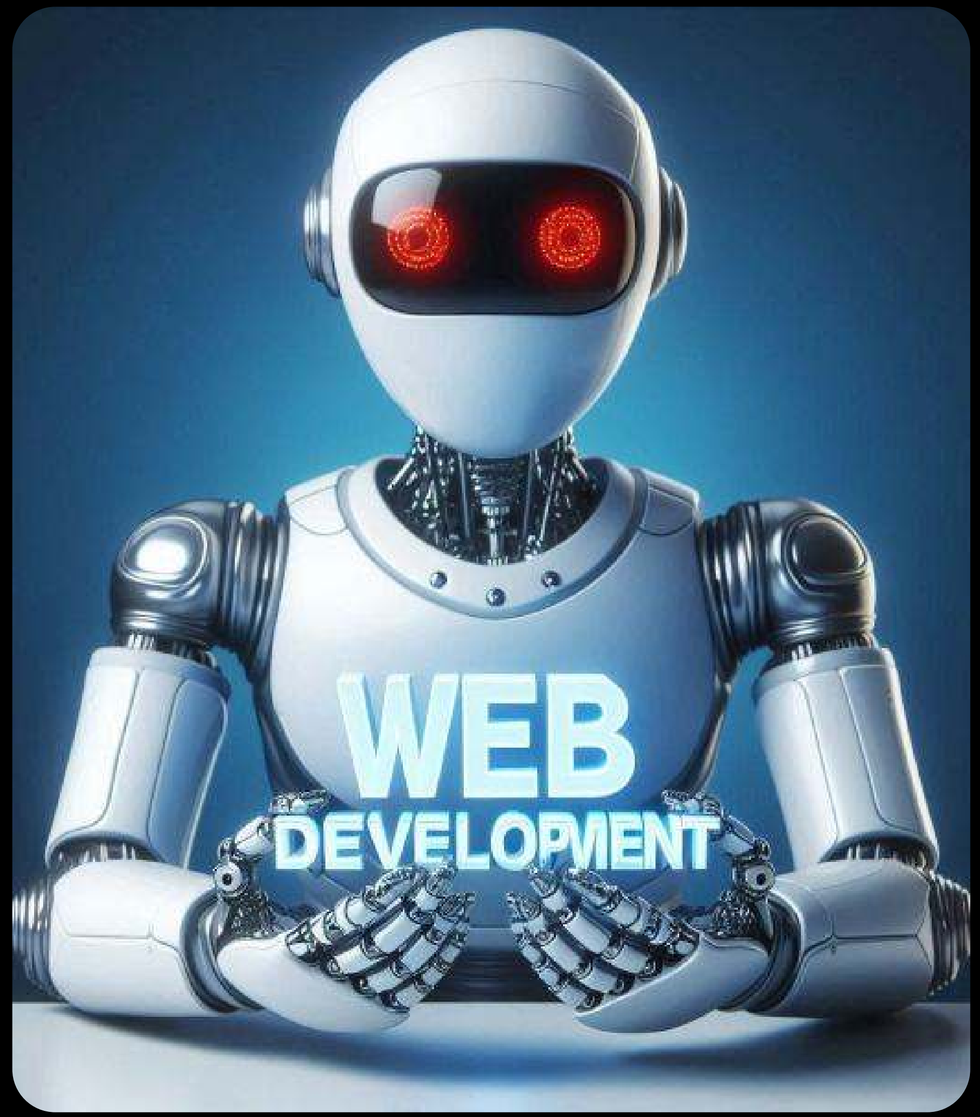

Captiva ai

Web & Mobile App Design & Development,
Odoo ERP Expertise, AI & Machine Learning Solutions.

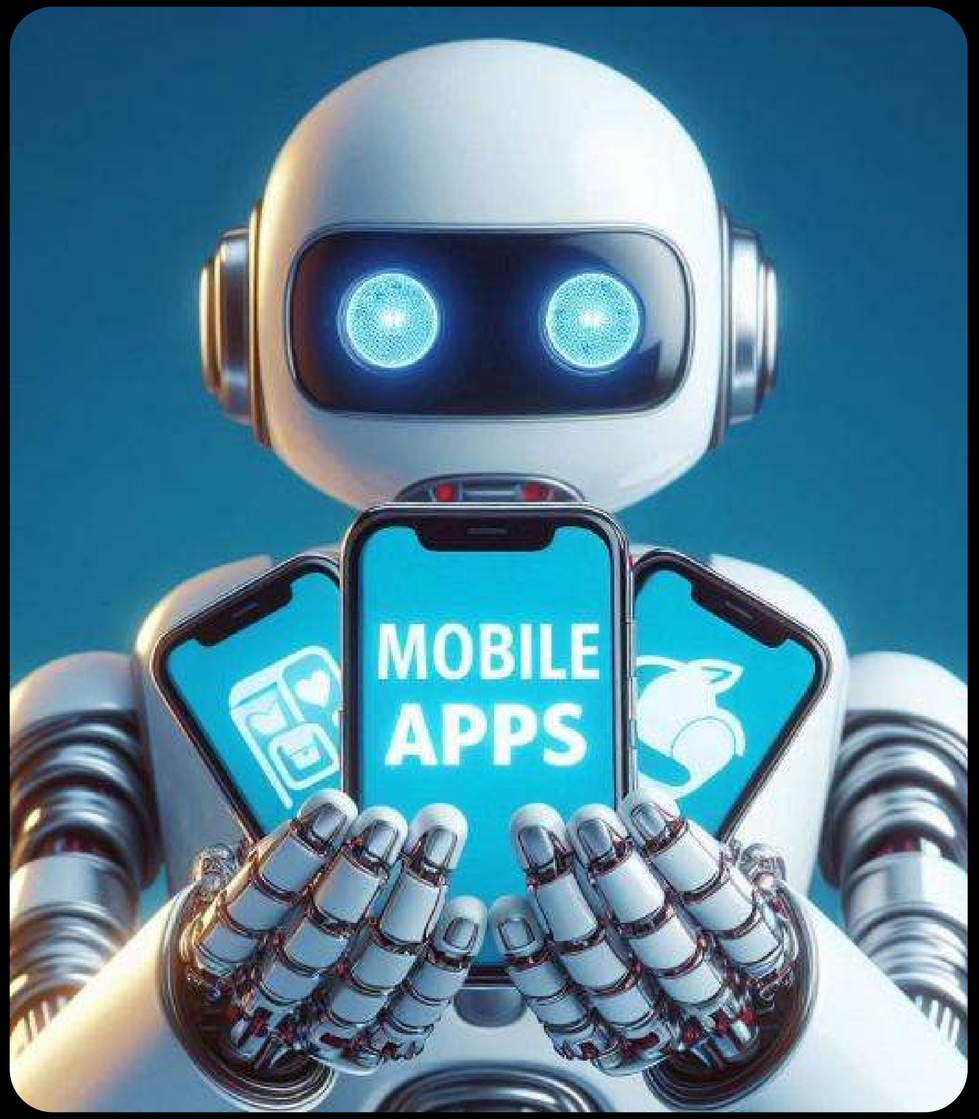

Web Design & Development

Transform your online presence with our end-to-end web design and development services:

- **User Experience Design:** Captivating interfaces that seamlessly blend aesthetics and usability.
- **Front-End Development:** Interactive, responsive web solutions built with cutting-edge frameworks.
- **Backend Development:** Powerful, secure, and scalable backend systems tailored for growth.
- **Hosting and DevOps:** Reliable hosting solutions coupled with efficient CI/CD pipelines for optimal performance.

Captivaai

Mobile App Design & Development

Deliver world-class mobile experiences with solutions designed for innovation and engagement:

- **User Experience Design:** Crafting intuitive and visually striking app designs.
- **Cross-Platform Development:** Unified development for seamless performance across devices.
- **Native App Development:** High-performance native apps that leverage the full power of iOS and Android platforms.
- **App Maintenance & Support:** Proactive maintenance and responsive support to ensure long-term success.

Captivaai

Odoo ERP Expertise

Maximize your operational efficiency with our comprehensive Odoo ERP solutions:

- **Odoo Implementation:** End-to-end deployment of Odoo systems tailored to your business workflows.
- **Odoo Consultation:** Strategic insights to optimize ERP performance and value.
- **Odoo Customization:** Tailored modules and features to meet your unique operational needs.
- **Odoo Training:** Comprehensive training programs to empower your team.
- **Hosting & Support:** Scalable hosting and round-the-clock support for peace of mind.

Captivaai

AI & Machine Learning Solutions

Stay ahead with our advanced AI and machine learning services designed to drive innovation:

- **Custom AI Solution Development:** Intelligent solutions crafted to tackle complex business challenges.
- **Machine Learning Model Development:** Leveraging data to create predictive models that deliver actionable insights.
- **AI Integration with Existing Systems:** Upgrading your infrastructure with seamless AI capabilities.
- **Data Preparation and Processing:** Clean, structured data for optimal AI implementation.
- **AI Consulting and Strategy:** Expert guidance to harness the transformative power of AI.

Our Portfolio

Latest Projects

Captiva ai

Khazyn: Transforming B2B Grocery eCommerce

Captiva AI collaborated with Khazyn to design and develop a B2B Grocery eCommerce Website tailored to meet the unique demands of businesses in the grocery sector.

The project included the following key areas:

- User Experience (UX) Design
- Front-End Development (React.js)
- Backend Development (Python Django)
- Devops

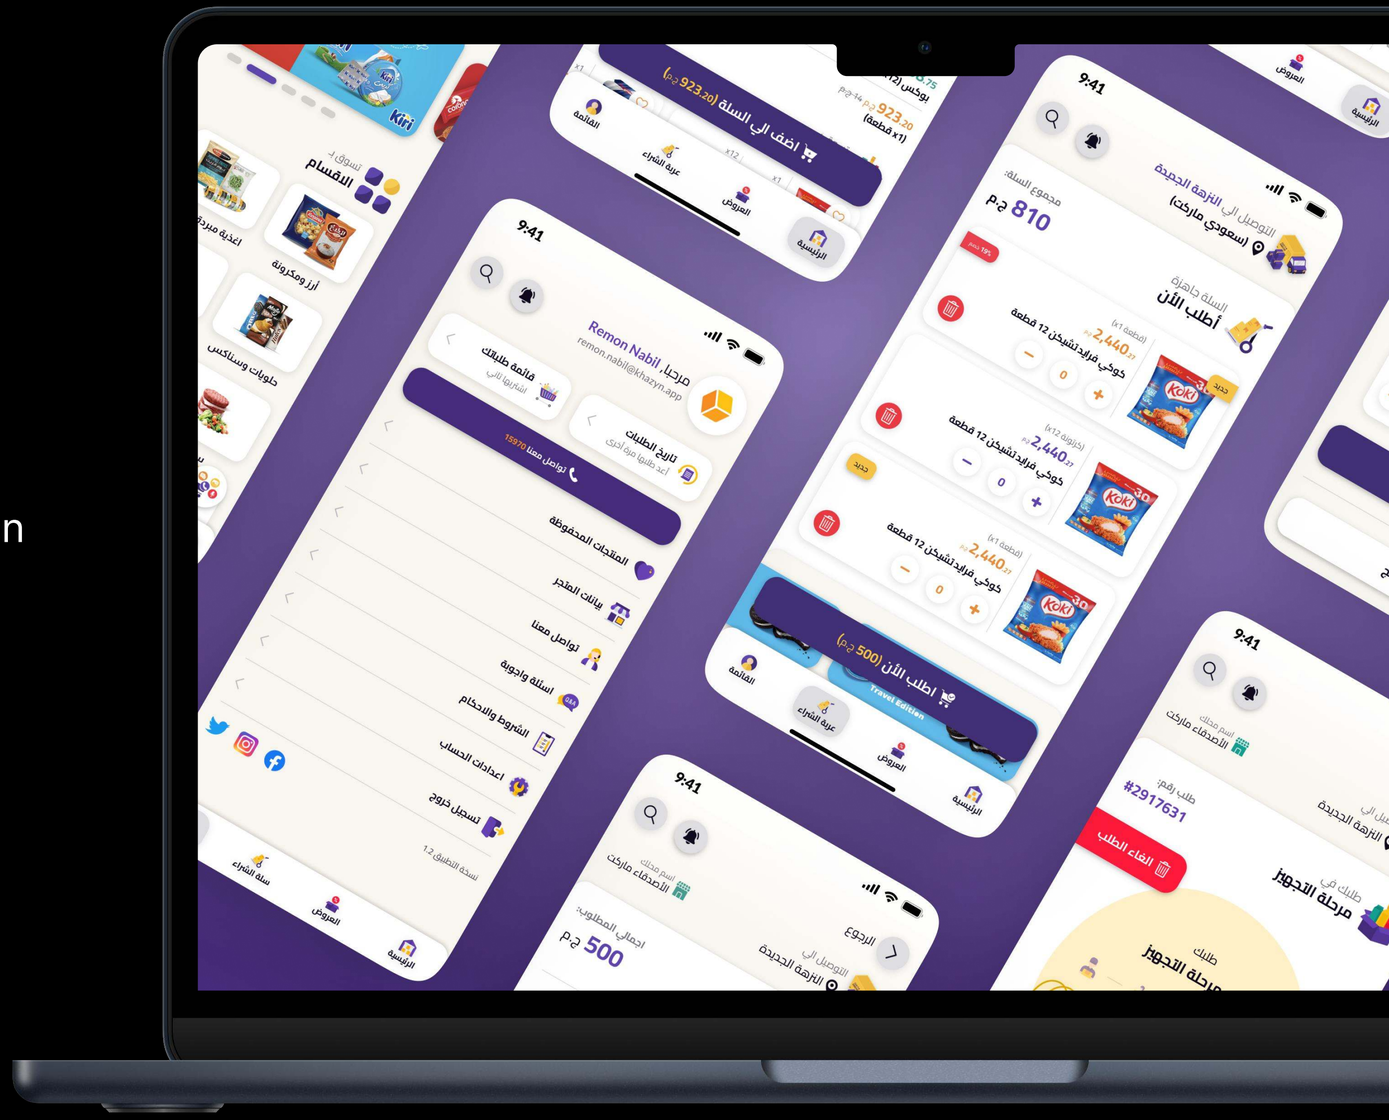

Captiva ai

Khazyn Mobile App: Revolutionizing Grocery Procurement for Businesses

Captiva AI worked closely with **Khazyn** to design and develop a powerful and user-friendly Mobile Application that empowers businesses to manage their grocery procurement effortlessly on the go.

The project included the following key areas:

- User Experience (UX) Design
- React Native Development (IOS & Andriod)
- Backend Integration

Captiva AI

Khazyn B2B Grocery ERP Project Overview

Captiva AI implemented a tailored Odoo ERP system for Khazyn, a B2B eCommerce platform specializing in groceries. The solution integrates key modules such as Accounting, Sales, Purchasing, Inventory, Payroll, and Fleet Management to streamline operations.

The ERP system optimizes inventory management, simplifies order processing, and enhances delivery efficiency, enabling Khazyn to provide a seamless and reliable experience for their grocery partners while scaling their business effectively.

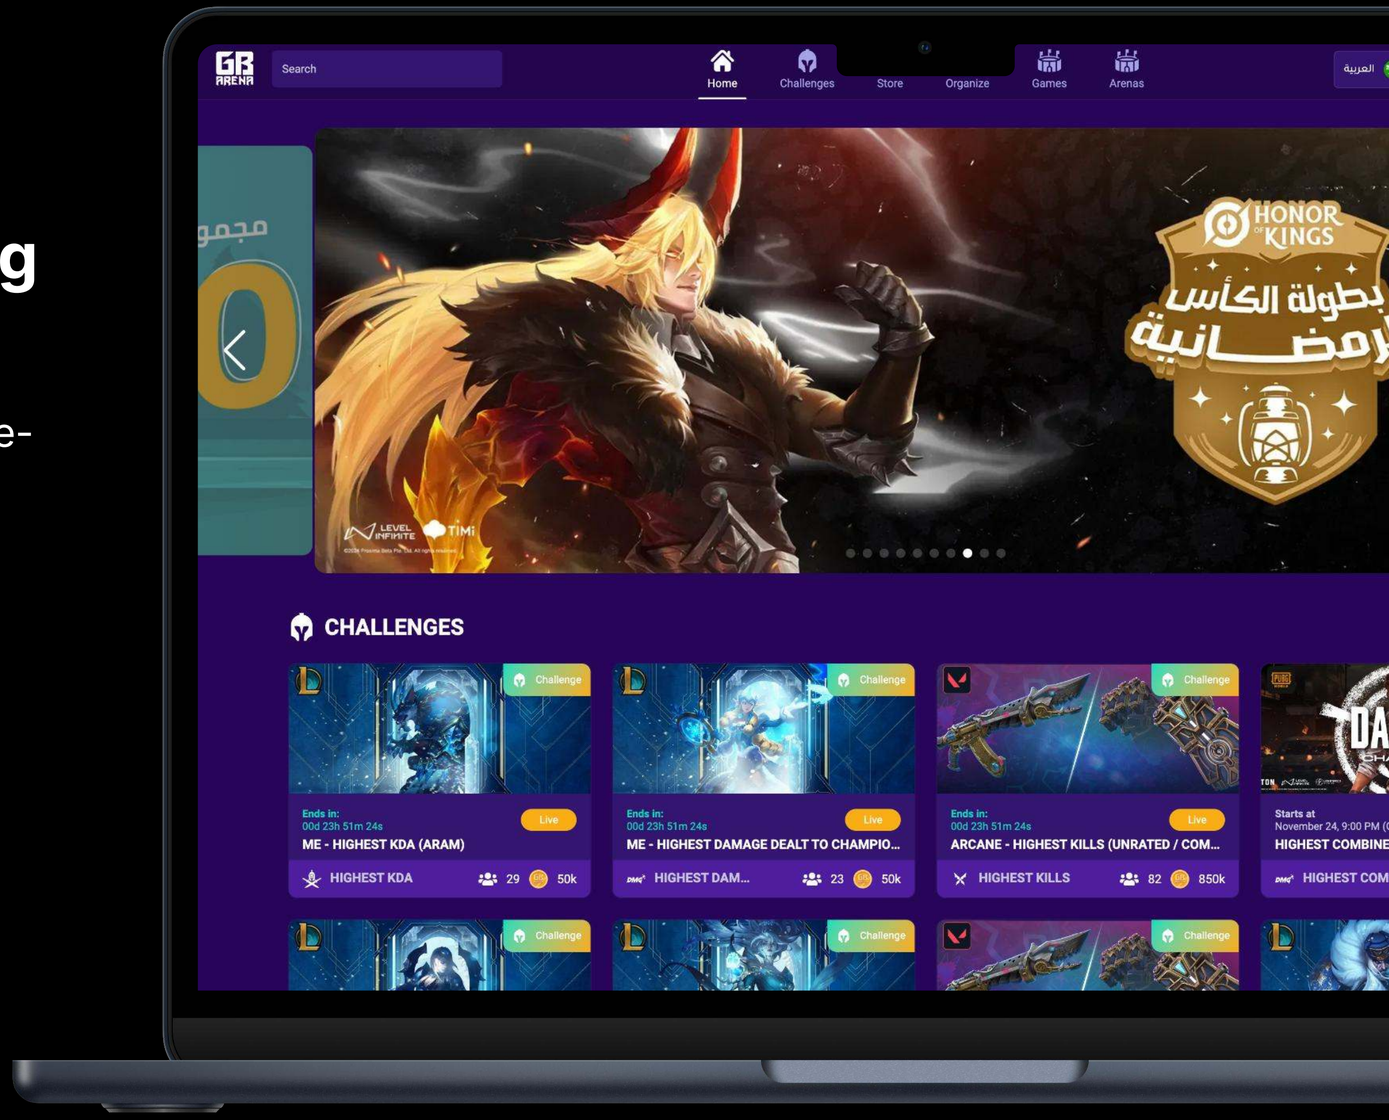

Captiva ai

GBarena Web App: Revolutionizing eSports Experiences

Captiva AI collaborated with GBarena to build a feature-rich Web Application that delivers a seamless online experience for the eSports community.

The project included the following key areas:

- User Experience (UX) Design
- Front-End Development (Vue.js)
- Backend Development (Php Laravel, NodeJs)
- Devops

Captiva ai

Wadico ERP Project Overview

Captiva AI developed a comprehensive ERP solution for Wadico, a company under the Ministry of Petroleum and Mineral Resources. We integrated Odoo ERP with the Libra machine for real-time manufacturing tracking. The system covers Accounting, Sales, Manufacturing, Inventory, and Purchasing, streamlining production, reducing errors, and improving financial performance. It provides operational transparency, enhances decision-making, boosts accuracy, and increases productivity.

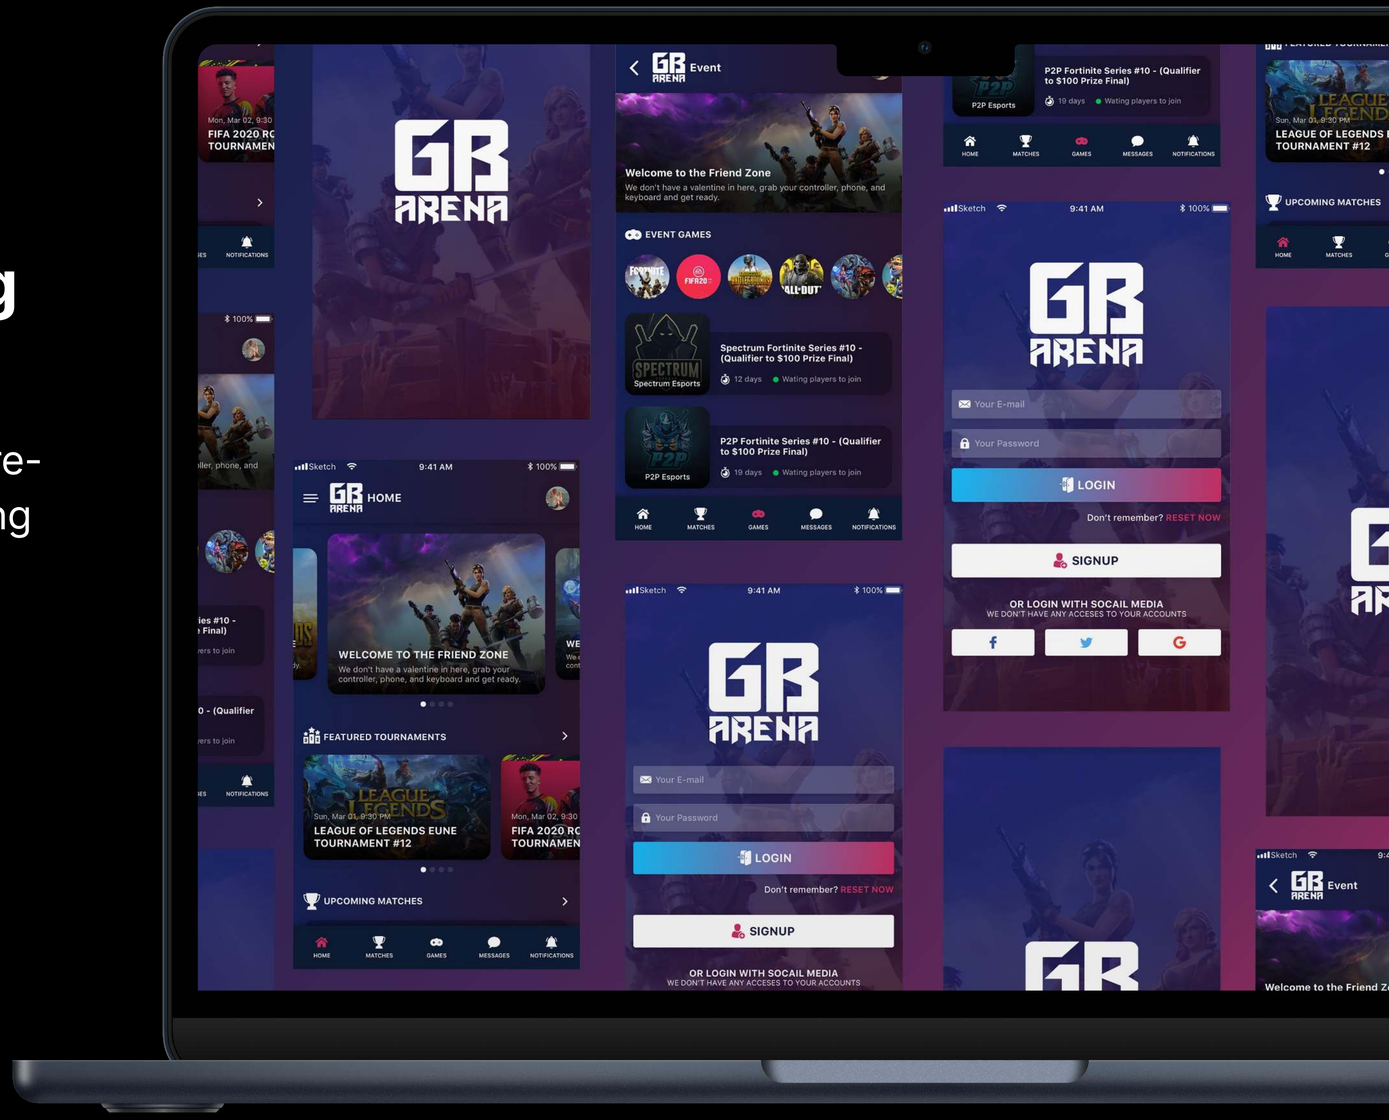

Captiva ai

GBarena Mobile App: Empowering Gamers On-the-Go

Captiva AI partnered with GBarena to develop a feature-rich Mobile Application designed to enhance the gaming community's experience.

The project included the following key areas:

- User Experience (UX) Design
- React Native Development (IOS & Andriod)
- Backend Integration

Captiva ai

Mumerz ERP Project Overview

Captiva AI developed an Odoo ERP system for Mumerz, integrating it seamlessly with Magento to enhance eCommerce operations. The system utilizes modules such as Accounting, Sales, Purchasing, Payroll, Inventory, and Fleet Management, ensuring efficient order processing and delivery.

This integration enables Mumerz to optimize inventory management, streamline operations, and achieve faster order fulfillment, positioning it as one of the fastest delivery services in Egypt.

Captiva ai

4eShopping Mobile App Project Overview

Captiva AI designed and developed the "4eShopping" mobile app, a B2B eCommerce platform tailored for pharmacies. The app streamlines the stock replenishment process, enabling pharmacies to effortlessly browse, order, and manage their inventory from a centralized platform.

The project included the following key areas:

- User Experience (UX) Design
- React Native Development (IOS & Andriod)
- Backend Integration

Captiva ai

Alhilal Club Prediction Website Project Overview

Captiva AI developed the Alhilal Club prediction website, a platform designed for football enthusiasts to predict match results. This interactive website allows users to submit their predictions for upcoming matches, enhancing engagement within the Alhilal Club community.

The project included the following key areas:

- User Experience (UX) Design
- Front-End Development (React.js)
- Backend Development (Php Laravel)
- Devops

Captiva ai

Misr Salt Manufacturing ERP Project Overview

Captiva AI implemented a fully integrated Odoo ERP system for Misr Salt Manufacturing, designed to minimize waste and optimize production quality. The system enables the creation of accurate Bills of Materials (BOMs) to support efficient, high-quality production lines.
The ERP includes key modules such as Accounting, Sales, Purchasing, Inventory, Payroll, and Manufacturing, providing comprehensive tools to streamline operations. This solution enhances resource management, reduces scrap, and ensures better operational control, improving overall productivity and profitability.

Captiva ai

Decorative Glass Manufacturing ERP Project Overview

Captiva AI developed a fully integrated Odoo ERP system for Decorative Glass Manufacturing, connecting with the LiSEC German app to automate client request dimensions to manufacturing machines, reducing glass waste and increasing profitability. The ERP system includes Accounting, Sales, Manufacturing, Purchasing, Payroll, Inventory, and Maintenance modules, ensuring efficient operations. Additionally, Power BI integration provides advanced analytics and real-time reporting, enhancing decision-making and operational visibility.

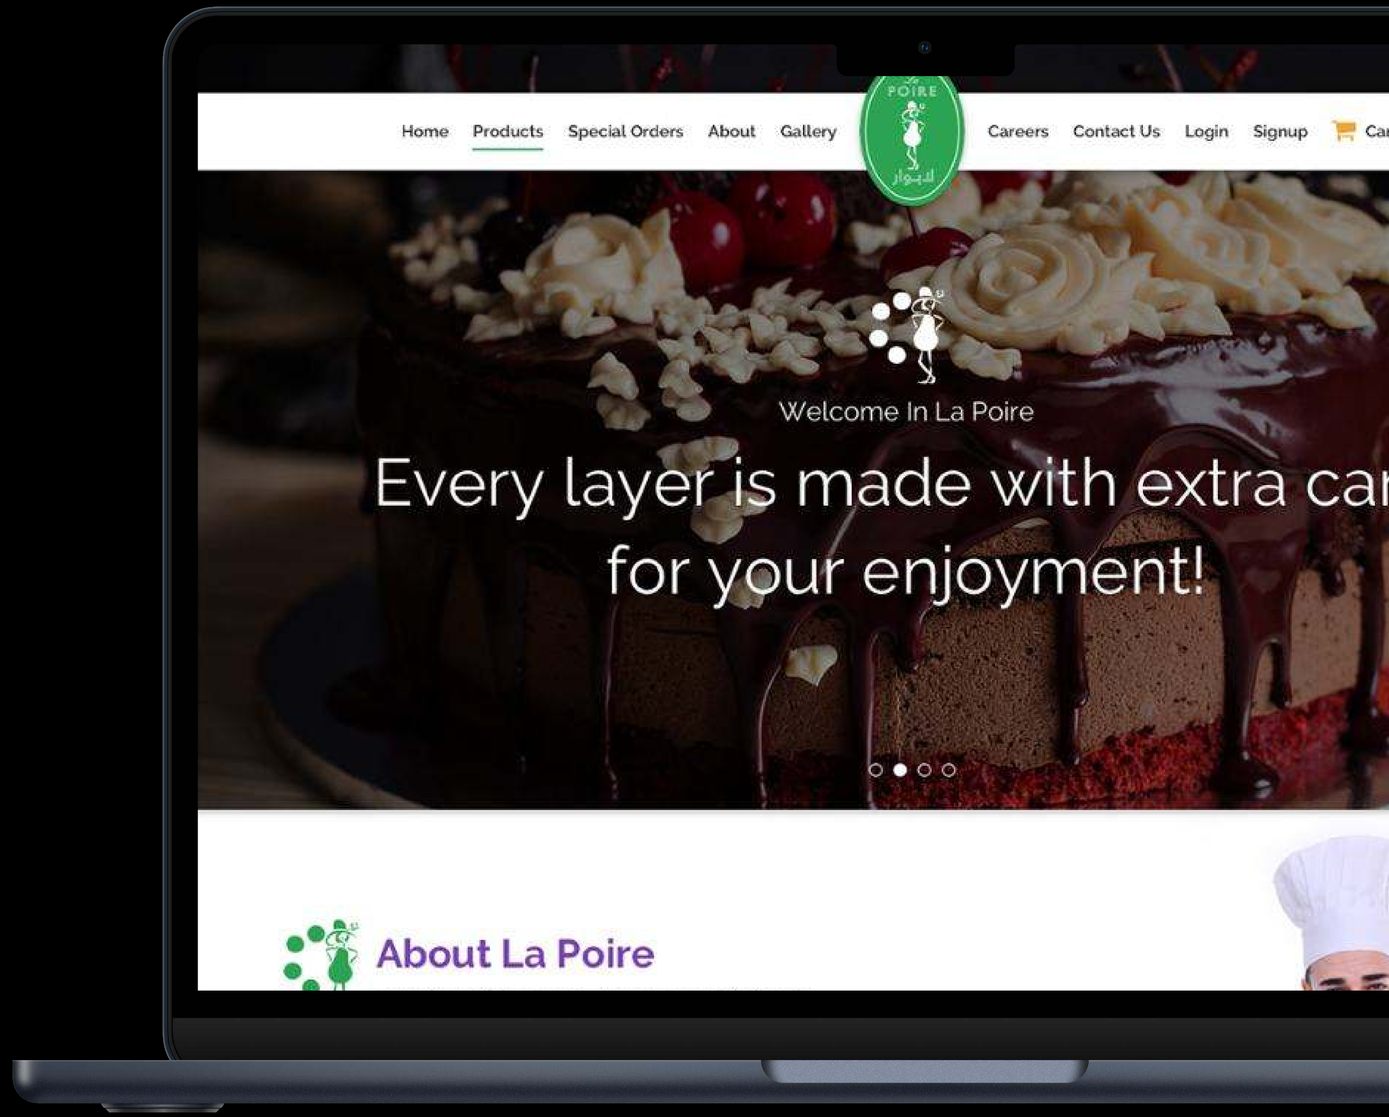

Captiva ai

LaPoiré Project: Redefining eCommerce Excellence

Captiva AI collaborated with LaPoiré to elevate their eCommerce platform, delivering a comprehensive Web Design & Development solution that emphasizes user experience and robust functionality.

The project included the following key areas:

- User Experience (UX) Design
- Front-End Development (Vue.js)
- Backend Development (Php Laravel)
- Devops

Captiva ai

INW & IMW ERP Project Overview

Captiva AI developed a fully integrated Odoo ERP system for INW & IMW, connecting their four international branches. The system includes Accounting, Sales, Inventory, Purchasing, Payroll, Maintenance, and Tender modules, reducing the effort of data collection from multiple locations and client sites. It streamlines operations, improves efficiency, and provides real-time insights, enhancing productivity and decision-making across the organization.
